REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present application relates to an overhead system of inclined eccentric geosynchronous orbiting satellites, wherein there is provided a service area on a surface of the earth having a predetermined minimum elevation angle from the horizon and an operating arc defined by a subset of points on a sky track when viewed from within the service area, and wherein a satellite having an eccentric, substantially 24-hour period geosynchronous orbit with respect to the earth operating on the operating arc. The aforementioned limitations and combination thereof are not taught in the prior art. In light of the foregoing the claims (1, 4-12) of the present application are found to be patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
